Prek Kampeus, Dangkor Phnom Penh, Cambodia
Sex: Female | Date of birth: 12 Dec 2004 | Nationality: Cambodian

Computer Science student skilled in designing and building RESTful APIs using Java and Spring Boot, with growing expertise in microservices. Combines strong technical foundations with a talent for mentoring able to break down complex topics and guide others through structured learning.

RELEVANT SKILLS

Teamwork | Communication | Technological skills | Conflict Resolution | Organization | Time Management | Problem Solving | Attention to Detail

WORK EXPERIENCE

Institute of Science and Technology Advanced Development *Nov-2025–June-2026*
IT Professional Course

Project: ISTAD INSIGHT is a unified digital platform designed to migrate and combine various existing ISTAD systems into a single, scalable application for better performance, maintainability, and user experience.
Technologies: Java (Spring Boot, Microservices), Next.js, Turborepo, Redis, REST APIs, Tailwind CSS, ShadCN UI, MSW, Git, Docker, Minio
Responsibilities:

- Analyse project requirements
- Design system and UX/UI
- Update and improve existing systems
- Apply Domain-Driven Design (DDD)
- Using CDC to capture and track real-time data changes across microservices
- Analyze and design database structure
- Implement microservices architecture
- Implement micro-frontend architecture
- Integrate with API frontend to backend

Sisters of Code (SoC) *February 2024–December 2025*
Teaching Volunteer

- Delivered structured lessons on web development fundamentals including HTML, CSS, and Wix website building
- Taught introductory programming using Code.org and Scratch to develop students computational thinking skills
- Facilitated an introductory session on Artificial Intelligence (AI), presenting core concepts in an accessible way
- Designed and adapted lesson materials to support beginner-level learners in a classroom environment
- Mentored students through hands-on coding activities, fostering problem-solving and creative thinking

Institute of Science and Technology Advanced Development *March 2025–October 2025*
Full-Stack Web Development Course

Project: STACKQUIZ is a real-time interactive quiz platform where organizers can create and launch quizzes for participants to join and play in live sessions.
Technologies: Spring Boot, Spring Security + JWT, Spring Data JPA (Hibernate), Keycloak, Next.js, Next Auth, WebSockets, Keycloakify, Docker, Nginx, Shadcn, RTK Query
Responsibilities:

- Lead and coordinate team members
- Developed Next.js dashboard with responsive UI and reusable components
- Fetched and managed data using RKT Query for efficient API integration
- Designed application workflows
- Analyzed and designed database structures and created ERD diagrams
- Coordinate and collaborate with team members on feature delivery

Institute of Science and Technology Advanced Development *February 2024–August 2024*
Foundation Course

Project: JOB QUICK is a job searching platform that allows users to browse. And search for job listings, view recommended and saved positions, and access detailed job information through a clean, modern, and responsive interface.
Technologies: React.js, Redux Toolkit, React Router, Tailwind CSS, REST API Integration
Responsibilities:

- UX/UI Design
- Frontend Development
- Integrate REST APIs
- Implement responsive UI using Tailwind CSS

EDUCATION AND TRAINING

Institute of Science and Technology Advanced Development *Nov-2025–June-2026*
Advanced Course - Spring Microservice: Nov, 24th 2025 – June, 19th 2026, Mon-Fri, 4 hours per day, 6 months

- Spring Boot & Spring Cloud fundamentals
- Reactive programming with Spring WebFlux
- REST API development & Spring REST Clients (WebClient, HTTP Interface)
- Database design & management (MongoDB, PostgreSQL, SQL vs NoSQL)
- Event-Driven Architecture (EDA) & Apache Kafka
- Change Data Capture (CDC) with Debezium
- OAuth2 implementation and security flows
- Microservices architecture design: decomposition, service-per-team, service-per-database
- Service communication patterns: API composition, CQRS, Event Sourcing
- Axon Framework
- Resiliency patterns: Circuit Breaker, Retry, Rate Limiter, Bulkhead
- Observability & monitoring: Prometheus, Grafana, Micrometer, OpenTelemetry, distributed tracing, centralized logging
- Docker & Docker Compose for multi-environment deployments (dev, QA, prod)
- API Gateway, BFF Pattern, Token Handler Pattern, and server-side/client-side UI composition

The University of Cambodia *2023-Present*
Bachelor of Computer and Science

- Structured & Object-Oriented Programming (C++, Java)
- Data Structures and Algorithms
- Database Management System (SQL Server, MySQL Server)
- Database Systems, ERD Design & DBMS (SQL Server, MySQL Server)
- Computer Networks & Data Communications
- Web Development in HTML, CSS, JavaScript, PHP, Laravel
- DevOps Fundamentals
- Artificial Intelligence & Machine Learning Fundamental
- Python Programming
- Mobile app using Java
- Spring Boot Framework

Institute of Science and Technology Advanced Development *Mar 2025-Oct 2026*
Full Stack Web Development : March, 31st – October, 31st 2025, Mon-Fri, 4 hours per day, 6 months

- **JAVA** **:** Fundamental Java and OOP concepts, Database Connectivity
- **Frontend** **:** HTML, CSS 3, Bootstrap 5, Tailwind CSS, UX and UI Design, JavaScript, TypeScript, React.js, Server Communication, Next.js
- **Spring** **:** Spring Boot, JPA, Spring RESTful Web Service, Spring Security, Thymeleaf Template Engine, JWT
- **Database** **:** PostgreSQL, SQL(Basic SQL, Advanced SQL), Data Modelling
- **GIT** **:** Version Control, Teamwork, Solving Conflict
- **Deployment** **:** Linux fundamental, Basic Cloud Service Usage, Web Server Configuration (NGINX), Docker Compose
- **SDLC** : Waterfall Model, Agile Model

Institute of Science and Technology Advanced Development *Feb 2024-Aug 2024*
Foundation : February, 05th 2024– August, 23rd 2024, Mon-Fri, 4 hours per day, 4 months

- **Frontend** **:** HTML, CSS 3, Bootstrap 5, Tailwind CSS, UX and UI Design, JavaScript, React.js
- **Backend** **:** Java basic, OOP Concept,
- **GIT** **:** Version Control System, Teamwork Collaboration, Solving Conflict

Hun Sen Tuek Phos High School *2020-2022*
BacII National certificated

PERSONAL SKILLS

Language

- Khmer: Native Language
- English: Good Writing, Speaking, Listening and Reading

HOBBIES & INTEREST

- Reading and Personal growth
- Exploring emerging technology and building side projects
- Continuous self-learning and curiosity-driven growth
- Listening to music
- Follow up with new technology
